mood

Noble Stone trae ispirazione dalla fisionomia di una **pietra calcarea dalla texture monocolor**e collocata in scenari incontaminati. La roccia sedimentaria, plasmata dalla natura e dal lavoro del tempo, è restituita con grande **natural**eza materica in un gres porcellanato dall'estetica **minimale**.

Una **finitura naturale** e piacevole al tatto e una trama fatta di **sottili venature** che seguono una **struttura come lievemente stratificata**. Una resa morfologica perfetta che riveste gli ambienti di una straordinaria bellezza.

Noble Stone draws inspiration from the physiognomy of a **limestone with a single-colour texture** set in pristine scenery. The sedimentary rock, shaped by nature and the workings of time, is presented with an exquisitely **natural texture** in a porcelain stoneware with a **minimalist aesthetic**.

A **natural finish** that is pleasant to the touch and a texture made up of **subtle veining effects** that follow a **structure as if slightly layered**. A flawless morphological rendering that covers rooms with extraordinary beauty.

Noble Stone s'inspire de la physionomie d'une **Pierre calcaire à la texture monocolor**e se trouvant dans des paysages incontaminés. La roche sédimentaire, fruit du long travail de la nature et du temps, est reproposée avec un **naturel de la matière** sans précédent à travers un grès-cérame à l'**esthétique épurée**.

Une **finition naturelle** et agréable au toucher et une trame composée de **très fines veines** qui jalonnent une **structure légèrement stratifiée**. Un rendu morphologique parfait qui pare les environnements d'une extraordinaire beauté.

Noble Stone ist an der Optik eines **einfarbigen Kalksteins** inspiriert, der in unberührten Gebieten anzutreffen ist. Das Erscheinungsbild des von der Natur und den Zeichen der Zeit geprägten Sedimentgesteins wurde mit überaus echter stofflicher Wirkung auf ein **minimalistisch anmutendes Feinsteinzeug** übertragen.

Eine **natürliche Oberfläche** mit angenehmer Haptik und ein Motiv aus **dünnen Äderungen** folgen einer **wie leicht geschichtet wirkenden Struktur**. Eine morphologisch perfekte Wiedergabe, die den Raum in außergewöhnliche Schönheit kleidet.

3D Satin, l'inedita finitura opaca, setosa e morbida al tatto, che evoca la superficie di una pietra levigata e plasmata dallo scorrere del tempo, con **venature finemente incise** dai riflessi **brillanti**. Un richiamo alla maestria di un bassorilievo antico e alla bell'Italia, al suo patrimonio artistico, fatto di decorazioni e architetture preziose, custodi di una storia millenaria.

new finish

3D Satin, the unprecedented **matt finish**, **silky** and **soft to the touch**, evokes the surface of a stone polished and shaped by the passage of time, with **finely engraved veins** and **brilliant reflections**.

A reference to the mastery of an ancient bas-relief and to beautiful Italy, to its artistic heritage, made up of precious decorations and architecture, guardians of a millenary history.

3D Satin, la **finition mate** inédite, **soyeuse** et **douce au toucher**, qui rappelle la surface d'une pierre polie, façonnée par le temps qui passe, avec des **veines finement incrustées** aux **brillants reflets**.

Un clin d'oeil à la grandeur d'un antique bas-relief et à la « Bell'Italia », à son patrimoine artistique, composé de précieuses décorations et architectures, gardiennes d'une histoire millénaire.

Die neue, matte Oberfläche 3D Satin fühlt sich **seidig und weich an**. Sie evoziert die Oberfläche eines geschliffenen und von der Zeit modellierten Steins, mit **fein eingeschnittener Äderung** und **leuchtenden Reflexen**. Ein Verweis auf meisterhaft ausgeführte Basreliefs und auf die Schönheit Italiens mit seinem Kunsterbe aus kostbaren Dekoren und Bauten, die von einer Jahrtausende alten Kultur zeugen.

Una tecnologia digitale avanzata che fonde bellezza e tecnica, arricchisce la grafica della superficie da esterno 60x120 in 8,8 mm di spessore, conferendo, mediante giochi di chiaroscuro, un effetto di matericità e tridimensionalità che emula la bocciardatura tipica dei marmi naturali.

Advanced digital technology that blends beauty and technique enriches the pattern of the **60x120 outdoor surface** in 8.8 mm thickness, with chiaroscuro interplays adding a **materic and three-dimensional quality** that emulates the **bush-hammering** typical of natural marble.

Une technologie numérique de pointe qui fusionne beauté et technique enrichit le graphisme du **revêtement pour extérieur**, au format de **60x120** sur 8,8 mm d'épaisseur, en jouant sur le contraste clair-foncé, un **effet de matière et une tridimensionnalité** qui émule le **bouchardage** typique des marbres naturels.

Hochmoderne digitale Technologie vereint Schönheit und Technik. Die Grafik des **Außenbelags im Format 60x120** mit 8,8 mm Stärke erzeugt durch Helldunkleffekte einen **stofflichen und dreidimensionalen Eindruck**, der an das typische Aussehen von **gestocktem**, natürlichem Marmor erinnert.

Italcer S.p.A. SB reserves the right to make any changes it deems fit in order to improve the product, without prior notice. All images are provided for illustrative purposes only and other colours and aesthetic features are available.

Le cromie, le strutture e le grafiche delle piastrelle riprodotte nelle immagini del catalogo potrebbero non corrispondere fedelmente al prodotto industriale.
The colours, structures, and patterns of the tiles illustrated in the catalogue might not correspond exactly to the actual product.

Eventuali differenze di tono fanno parte del prodotto e rientrano nel range di stonalizzazione.
Any eventual difference of shade is part of the product and falls within the color shading range.

- ATTENZIONE: Per particolari installazioni potrebbero essere necessari articoli ed accessori specifici non presenti in questo catalogo. Per queste esigenze prego riferirsi direttamente al referente commerciale LA FABBRICA AVA.
N.B. Particular items and accessories not listed in this catalogue may be required for certain laying methods. For these needs, please contact the LA FABBRICA AVA sale sales directly.
- I pesi riportati in tabella sono indicativi in quanto possono subire leggere variazioni per motivi produttivi.
The weights stated in the chart are approximate as some changes may be necessary for production reasons.
- La struttura e il tono tra i fondi di spessore 6mm e 8,8mm potrebbero presentare differenze.
The structure and shade of the tiles with 6 mm and 8.8 mm thickness could show differences.
- Tra i fondi di spessore 8,8, e 20 mm non si garantisce l'abbinabilità.
We cannot guarantee tonal matches between the same background tiles with different thickness (8,8,10 or 20 mm).
- Per il gradino non si garantisce la stessa tonalità del fondo.
We cannot guarantee that the shade of the stair tile will be the same as the background tile.
- La tonalità del colore della piastrella nelle finiture liscia e strutturata potrebbe essere leggermente dissimile.
The colour shading of smooth and structured finishing may vary slightly.
- In caso di posa modulare il grado di stonalizzazione del pavimento potrebbe aumentare rispetto ad una posa monoformato.
On pattern sizes floors the shading may result being more intense than on a single format floor.
- Tutti i decori si abbinano al fondo ma possono essere di tonalità diverse.
All decorations match the base but may be of a different tone.
- Si consiglia fortemente di pulire bene la superficie delle piastrelle strutturate immediatamente dopo aver fugato il pavimento. Questa operazione eviterà al materiale usato per la fuga di solidificarsi all'interno delle cavità presenti nella superficie della piastrella.
We strongly recommended you thoroughly clean the surface of textured floor tiles immediately after filling the joints. This will prevent the filler solidifying in the cavities found in the tiles' surface.
- Decor con vetro e graniglie. Le decorazioni mediante l'applicazione dei vetri e delle graniglie vetrose sulle piastrelle ceramiche possono presentare delle irregolarità nella distribuzione di dette graniglie, questo non pregiudica l'effetto estetico del prodotto, ma anzi ne esalta le caratteristiche.
Decors with glass and glass-grit. The decors produced by the application of glass and glass grit on ceramic tiles may have an irregular distribution when utilising the glass grit. This technique does not compromise the aesthetic effect of the decor and moreover it does enhance its technical features.
- Per un risultato ottimale si consiglia di utilizzare durante la posa i cunei.
For a perfect result, we recommend you use wedges during laying.
- Si consiglia di mantenere una fuga di 2 mm per la posa in monoformato degli articoli rettificati.
Si consiglia di mantenere una fuga di 3 mm per la posa in multiformato (da 2 formati e oltre) degli articoli rettificati. Si consiglia di mantenere una fuga di 4 mm per la posa degli articoli con bordi non rettificati.
If you are laying same sized straightened-edged tiles, we recommend you keep a 2 mm joint. If you are laying different sized straightened-edged tiles (two or more sizes) together, we recommend you keep a 3 mm joint. In the case of non-straightened-edged tiles, we recommend you keep a 4 mm joint.
